Financial institutions have had specific vendor management guidance to follow for decades. Each primary financial institution regulatory body has issued specific requirements for working with third parties. To avoid costly fines, reputation risk, and consumer harm, vendor management must be embedded in all lines of business. Siloed approaches to vendor management are outdated. This program provides a thorough review of the basic requirements and guidance for sustaining a compliant and risk-based program.

TOPICS

- Third-party vendor and Compliance Risk
 - Essential elements every vendor management program should have.
 - The most common vendor management missteps.
 - Ways to reduce risk across the vendor management lifecycle.
