

UNIVERSAL BANKER STRATEGIES VIRTUAL SERIES

AUGUST 10, 2022

Why should a bank consider and implement universal retail banking? Go stand in any retail branch lobby, count the customers, and you will find the answer. Today's retail branch is a valuable delivery channel and customer touch point that is rapidly declining. Customer expectations and increased technology are impacting retail banking. The strategy for retail brick and mortar banking must be revisited. Explore the answers to these questions (and more) during this interactive training session.

- How will a financial institution make the limited customer visits a memorable experience that is productive and profitable for both the customer and the bank?
